**Online Police
Gazette**

System Features

The Police Gazette is a versatile web application designed to efficiently track daily updates of employees, including their achievements, punishments, and work assignments. It simplifies the process of creating and updating Police Gazette bulletins within specified timeframes and automatically generates corresponding orders for each bulletin. The system categorizes Gazette bulletin data based on the type of order required, ensuring organizational clarity.

Furthermore, it offers a convenient status categorization feature, allowing users to differentiate between approved orders, pending orders, and those in progress. This categorization is aligned with the financial year. The Police Gazette's user-friendly interface ensures accessibility and ease of use across various devices, making it an invaluable tool for efficient employee management and administrative tasks..

- ➔ **Employee Performance Tracking:** The Police Gazette Management System provides a comprehensive platform for monitoring and managing employee performance on a daily basis. It allows for the recording of achievements, punishments, and various work-related activities for each employee.
- ➔ **Timely Gazette Bulletin Creation and Updates:** This system enables the efficient creation and timely updates of Police Gazette bulletins. Users can input and edit information related to employee achievements, punishments, and work assignments within predefined schedules.
- ➔ **Order Generation:** The system automates the process of generating orders for each Gazette bulletin. It categorizes the data based on the type of order required, streamlining the administrative workflow.
- ➔ **Categorization by Status:** Users can easily categorize orders based on their status, including Approved, Pending, and In-Progress orders. This feature facilitates effective tracking of the status of each order.
- ➔ **Financial Year Segmentation:** The system organizes data according to the financial year, allowing for precise reporting and analysis. This segmentation assists in financial planning and performance evaluation.

Online Police Gazette

Gazette Clerk prepare the Police Gazette Bulletin, after verifying the orders and forwarded to Office Superintendent for approval.

The prepared Police Gazette Bulletin are reviewed and approved by the Office Superintendent.

After the orders approved, they are attached to the employees service books by just printing.

Dashboard

On a Dashboard Officials can review the total orders
